AIR DOCTORS HEATING AND COOLING PRESENTS

AIR DUCT CLEANING

CLEANING ADVANTAGES

Physical Appearance

Dirty diffusers and registers are a key indication that it's time for your ducts to be cleaned.

Better Indoor Air Quality

With the general use of your home, large amounts of pollutants are generated which include dander, dust, and chemicals. Over time, these pollutants are recirculated and allowed to accumulate in your duct system. Most people who get their ducts cleaned note a large improvement in their allergies and other respiratory ailments.

Energy Efficiency

Despite a filter's best efforts ducts still become dirty. This causes your HVAC system to work harder to achieve the desired levels of comfort. According to the U.S. Department of Energy, up to 40% of the energy consumed by an HVACR system is wasted and dirty ducts compound the problem. With your ducts cleaned, you will reduce energy consumption as well as lengthen your equipment's lifespan.

Equipment Longevity

Dirty ductwork can cause your equipment to work harder which will cause a higher equipment failure rate. Cleaning your ductwork, along with general maintenance, will help give your equipment a lifetime of reliability.

Don't Forget About the Dryer

Your dryer's exhaust is full of lint and debris. Keep the life in your appliances by getting the dryer exhaust cleaned, as well. A dirty dryer vent can impact your dryer's performance and reduce its life-span.
