MOLD?**

**INCREASED  
ENERGY  
CONSUMPTION?**

Why should you call **AirDOCTORS** & **AEROSEAL** your home today?

**Control Humidity Issues  
and Avoid Mold Growth**

Sealing your air returns will block humid and unconditioned air from entering the system and eliminate the threat of mold growth inside your ducts.

**Blocks Dust & Allergens  
To Create a Cleaner  
Environment**

Sealed air returns stop gross dust, dirt, allergens, and other air pollutants from being introduced into your system and then blasted all over your house.

**Provides Healthier Airflow  
Throughout Your Home**

In addition to great airflow coming out of your vents, sealing your ducts blocks out all the filthy dust, dirt, and allergens, providing the fresh air that you expect and putting your mind at ease.
